

The background of the slide features a large, faint, circular seal of the State of Delaware. The seal contains the text "SEAL OF THE STATE OF DELAWARE" around the top and "LIBERTY AND INDEPENDENCE" around the bottom. In the center is a figure of a person holding a staff and a shield, with the year "1704" at the bottom left and "1787" at the bottom right.

DELAWARE'S RESPONSE TO COVID-19

Press Briefing
July 21, 2020

Schools: Planning Scenarios

Minimal Community Spread

School Buildings are Open
for In-Person Instruction

Scenario

1

Minimal Community Spread

Few cases with minimal increases
Low percent positive cases
Low numbers of hospitalizations

**Schools are open for in-person
instruction**

Minimal-to-Moderate Community Spread

Remote Learning/In-Person/Hybrid

Scenario

2

Minimal-to-Moderate Community Spread

Moderate levels of community spread
Moderate percent of increased cases,
percent positive and hospitalizations

**Schools may use a hybrid model
of remote learning and in-person
learning options with precautions
in place**

Significant Community Spread

School Buildings are Closed –
Remote Learning Only

Scenario

3

Significant Community Spread

Significant increase in cases, percent
positive and hospitalizations

**School buildings are closed –
remote learning only**

Note: Each planning phase will have some considerations in common and other features that build on the previous phase.

Schools Should Prioritize Reopening in Fall 2020, Especially for Grades K-5, While Weighing Risks and Benefits

News Release | July 15, 2020

WASHINGTON — Weighing the health risks of reopening K-12 schools in fall 2020 against the educational risks of providing no in-person instruction, school districts should prioritize reopening schools full time, especially for grades K-5 and students with special needs, according to a [new report](#) from the National Academies of Sciences, Engineering, and Medicine. Opening schools will benefit families beyond providing education, including by supplying child care, school services, meals, and other family supports. Without in-person instruction, schools risk children falling behind academically and exacerbating educational inequities.

Schools provide more than education:

- Meals
- Mental health services
- Socialization
- Child care
- Additional supports

**We are assigning an expert
liaison to advise each
school district on health
decisions around reopening
during COVID-19.**

Healthy Communities Delaware

Healthy Communities Delaware

Goal: To improve health, well-being, and equity in low-wealth DE Communities

Collaboration of many partners

Guiding Principles:

- Collaborate with the community
- Embed equity
- Mobilize across sectors
- Increase prosperity to improve health
- Commit over the long-term

COVID-19 and Vulnerable Communities

- **Disproportionate impact on low-income, minorities, non-English speakers**
- **Every-day challenges worsened**
- **Disproportionate economic impact, higher risk, less access to testing**

COVID-19 and Vulnerable Communities

Areas of Focus

- **Equitable COVID-19 response and recovery**
- **Social Determinants of Health**
- **Basic needs**

Opportunity Communities

- **Top quartile of Health Index Score**

2020 Funding & Collaboration

- **\$722,948 to communities**
- **9 communities receiving funding through 12 community-based organizations**

Testing Guidance for Business

- Fact sheet
- Ability to consult with DPH and Division of Small Business

The screenshot shows a document titled "Testing Guidance for Businesses and Employers During COVID-19" from the Delaware Health and Social Services Division of Public Health. It includes introductory text about preventing COVID-19 spread, a contact form for employers, and a section for general guidance. The contact form has fields for the employer's name and point of contact. The general guidance section lists various considerations for employers, such as staff health, scheduling, and safety protocols.

DELAWARE HEALTH AND SOCIAL SERVICES
Division of Public Health

Testing Guidance for Businesses and Employers During COVID-19

Businesses and employers can prevent and slow the spread of COVID-19 within the workplace. Businesses and employers are encouraged to coordinate with the Division of Public Health (DPH) and Delaware Emergency Management Agency (DEMA) to determine the most appropriate recommendations for employee testing based on a variety of factors including risk category and size.

The below guidance and recommendations are based on State of Delaware requirements, Division of Public Health guidance and information from the Centers for Disease Control and Prevention (CDC) and the Occupational Safety and Health Administration (OSHA).

Employers who want to discuss options for employee testing, or develop a testing or infection control plan for their organization are asked to fill out this contact form: <https://arcg.is/qDPPe>. You will be contacted within 72 hours of submitting the form.

Delaware Testing Guidance for Businesses

We invite Delaware employers, especially high-risk positions, to obtain information on testing options. We can work with you to provide options or coordinate pop-up testing events in proximity to your location to serve both the public and your employees.

We will respond within 72 hours.

Do not use this link for specific medical advice, please refer individuals to medical providers if immediate guidance is needed.

For other business guidance please visit - <https://coronavirus.delaware.gov/reopening/phase2/>
